

Biorex-Health-Line

Why do we need Dietary Supplements?

A varied healthy diet combined with regular physical exercise are the basic principles of keeping healthy and fit. Unfortunately, our everyday life is often hectic and stressful with all our appointments and obligations. We are unable to feed ourselves as we would like to. In this demanding situation the naturally based BIOREX Health-Line dietary supplements provide the support your system needs.

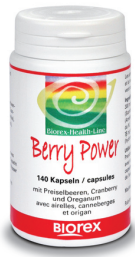

The Biorex Philosophy

BIOREX Health-Line is based on natural precursors whose positive characteristics are ideally complemented by the addition of suitable vitamins and minerals.

Our customary diet already includes part of our daily requirement of essential substances. Therefore a daily dosage of 2 capsules has been set to provide 60% of the average daily requirement. When necessary, 3 – 4 capsules may be taken per day.

Only purely vegetable capsules, known as Vegicaps, are used for the BIOREX Health-Line product range.

BIOREX Health-Line - the daily plus for your well-being.

Berry Power + Vitamin C, E, Beta-Carotene and Selenium

100 Caps.

Bladder protection

Cranberries and cowberries contain natural proanthocyanidins, which are capable of preventing bacteria from adhering to the cells of the urinary tract. They can therefore help to prevent urinary tract infections in women and men. Vitamins C + E, beta-carotene and selenium have antioxidant properties and are important for maintaining cell function.

Ingredients: 28% cranberry fruit powder, 28% cowberry powder / capsule shell: hydroxypropyl methylcellulose, vitamin C, vitamin E, beta-carotene, sodium selenium.

Broccoli + Lutein and Vitamin A

100 Caps.

Eyesight

Broccoli contains a high proportion of natural carotenoid plant substances, above all lutein. Lutein is important for preserving good eyesight, and must be added to food. The natural broccoli extract is enriched with concentrated lutein and vitamin A for optimisation. Vitamin A is involved with vision.

Ingredients: maltodextrin, lutein, 17% broccoli extract powder / capsule shell: hydroxypropyl methylcellulose, vitamin A.

Chlorella + Vitamin B12

100 Caps.

Green powerplant

The freshwater algae chlorella (green algae) is one of the richest sources of chlorophyll in the world. It can contribute to regeneration, improve vitality and raise one's general level of performance. The chlorella that is used is cultivated in a uniquely worldwide closed system (indoors), so pollutants from outside are excluded. Vitamin B12 is necessary for blood formation.

Ingredients: chlorella vulgaris powder (Germany) / capsule shell: hydroxypropyl methylcellulose, vitamin B12.

Iron (II) + Vitamin C Vitality Plus

100 Caps.

Iron is a vital mineral substance which is assimilated through food, since our body cannot produce it on its own. It is necessary for the formation of blood, as well as for transporting oxygen into the tissues to provide energy, and thus plays a decisive role in raising physical performance capability.

Biorex Health Line Iron (II) is a bivalent iron which can be utilised optimally by the body, particularly in combination with vitamin C.

Ingredients: ferrous gluconate, maltodextrin, vitamin C / capsule shell: hydroxypropyl methylcellulose

Pomegranate + Vitamin C, E, Beta-Carotene and Selenium Protector

100 Caps.

The pomegranate, one of the oldest cultivated plants, is an important fruit in Ayurvedic and traditional Chinese medicine. It contains a high proportion of polyphenols, such as ellagic acid. The proportion of ellagic acid in our capsules is 20%.

Vitamins C + E, beta-carotene and selenium have antioxidant properties and can capture free radicals. They are therefore important for maintaining cell function.

Ingredients: 28% pomegranate extract powder, 28% pomegranate powder /capsule shell: hydroxypropyl methylcellulose, vitamin C, vitamin E, beta-carotene, sodium selenium.

Green Power + Vitamin C and Zinc Body Wellness

100 Caps.

Barley buds contain a great deal of chlorophyll. Chlorophyll has a similar structure to the blood colorant haemoglobin in humans, which is responsible, amongst other things, for transporting oxygen within the blood vessels. Vitamin C functions as an antioxidant, and zinc supports the metabolism. In combination with sufficient physical activity and a balanced diet, Green Power can make a valuable contribution to helping you stay active and fit.

Ingredients: green power powder (85%, Australia), ascorbic acid, zinc sulphate / capsule shell: hydroxypropyl methylcellulose

Rose hip + Willow Bark and Vitamin E Healthy joints

100 Caps.

Rose hips (Haws) are a plant-based alternative for joint problems. The antioxidant, anti-inflammatory substances in rose hips are optimally supplemented by willow-bark powder and vitamin E. Willow bark contains natural salicylic acid, which is anti-inflammatory and pain-relieving. Vitamin E supports the antioxidant properties and can capture cell-destroying free radicals.

Ingredients: 54% rose hip extract powder (rose hip, maltodextrin) / capsule shell: hydroxypropyl methylcellulose, willow bark powder, vitamin E

Hempseed oil + Vitamins and Zinc Omega 3 : 6 Plus

100 Caps.

Hempseed oil contains an optimum ratio of all vital (essential) fatty acids, which are necessary for metabolism in humans. Unsaturated omega 3 fatty acids have a positive influence on the regulation of fat in the blood, and zinc supports the various metabolic functions.

The hempseed oil does not contain THC and thus does not have any intoxicating effect.

Ingredients: hempseed oil cold-pressed, emulgent (Glycerolmonostearat), zinc gluconate, vitamins, maltodextrin / capsule shell: modified starch, humectant: (Sorbitol, Maltitol, Glycerin)

Coral powder natural Calcium Strong bones

100 Caps.

Coral powder is a natural source of the vital mineral substance calcium. This purely organic calcium is seen as an important constituent and building block of bones and teeth. To produce the powder, only coral fragments are used that have been shed through natural erosion. The original coral is left untouched.

Ingredients: Coral powder (Scleractina, 85%, Okinawa (Japan) / capsule shell: hydroxypropyl methylcellulose

Pumpkin seeds + Vitamin C, E, Beta-Carotene and Selenium 100 Caps.

Men 40+

Pumpkin seeds support the prostate and bladder functions in middle-aged men in a natural way. By reducing the urge to urinate at night, this can improve sleep and thus the quality of life. The added vitamins and minerals are important for preserving cell function and are known for their antioxidant properties.

Ingredients: 56% pumpkin seed extract, / capsule shell: hydroxypropyl methylcellulose, vitamin C, vitamin E, beta-carotene, sodium selenium

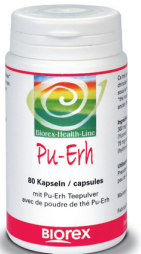

Noni + Q10 100 Caps.

Energy pack

Noni, also known as the great morinda or Indian mulberry, is an exotic fruit that has been known on Polynesian islands for centuries. We have supplemented the natural noni powder in an ideal way with coenzyme Q10, which plays an important role in accessing the body's own energy.

Ingredients: 77% noni powder / capsule shell: hydroxypropyl methylcellulose, coenzyme Q10

Pu-Erh + L-carnitine 100 Caps.

BodyFit

Natural pu-erh tea powder, ideally supplemented with L-carnitine, an amino acid-like substance. L-carnitine is known for optimising the way that energy is obtained from the fat and fatty acids in the body. To optimise fat-burning, sports activity is also recommended in parallel.

Ingredients: L-carnitine, 21% Pu-Erh tea-powder / capsule shell: hydroxypropyl methylcellulose

Spirulina + Vitamin B12 and Iron 100 Caps.

Blue powerplant

The freshwater algae Spirulina (blue algae) is one of the world's most nutrient-rich useful plants. One feels fitter and has more energy. Because of this nutrient richness, Spirulina is also classified by the World Health Organization (WHO) as particularly valuable. Iron and vitamin B12 are needed for blood formation and for transporting oxygen into the tissue, for providing energy.

Ingredients: Spirulina platensis (India) / capsule shell: hydroxypropyl methylcellulose, ferrous gluconate

Grape seeds + Vitamin B12 100 Caps.

Cell protection

Grape seeds contain natural oligomeric proanthocyanidins (OPC), which thanks to their antioxidant properties can neutralise free radicals. Free radicals can destroy cells or cell walls and can cause genetic mutations. Vitamin B12 is needed for blood formation and lowers the homocysteine level. Homocysteine is seen as a risk factor for atherosclerosis and cardio-vascular diseases.

Ingredients: 84% grape seed powder / capsule shell: hydroxypropyl methylcellulose, vitamin B12

Cinnamon + Vitamin C 100 Caps./300 Caps.

Supporter

In ancient times, the sweet bark from the tropics was used first for medicinal purposes; only later was it used in food. Today, we know that when taken regularly, cinnamon can have a positive influence on the level of blood sugar, as well as on the levels of fat in the blood. It is supplemented with vitamin C, which as an antioxidant can capture free radicals.

Ingredients: 72% cinnamon powder / capsule shell: hydroxypropyl methylcellulose, vitamin C
